Student Worksheet

Can you train a tiny AI?

In this activity you will:

- build a tiny language model
- train it
- talk to it
- retrain it
- inspect attention
- understand how training data changes behaviour

Challenge 1 ? Build it

My dataset

Predict

What kind of text do you think the model will learn?

Challenge 2 ? Train it

Observe

What happened to the loss value?

Reflection

Why do you think the loss changed?
