Teacher Guide

Before-lesson checklist

- Python installed
- Repo cloned
- 'pip install -e .' completed
- Sample data available in 'data/samples/'
- Optional Learn Mode extras installed with:

```
pip install -e ".[learn]"
```

Hardware expectations

- CPU-only works well
- 8GB RAM recommended
- No GPU required
- Classroom demo preset recommended for slower laptops

Setup options

- Teacher-led demo
- One machine projected to the class.

- Pair activity
- Two learners work together on one laptop.

- Individual exploration
- Each learner trains and experiments independently.

Suggested classroom pacing

Time	Activity
